Accessible Tourism in Saxony

- for travelers with mobility impairments
- for travelers with sensory limitations
- for travelers with learning and mental disabilities

Product development

- Basic idea: Networking of tourism competence with the competence of Saxon disabled persons associations
 - Extensive research in the regions of Saxony and cities of Dresden, Leipzig and Chemnitz
- Result: many accessible offers in Saxony
- Evaluation of these offers under consideration of a preferably closes accessible service chain

Product development

- Since the beginning of the project in 2006, great emphasis on the quality of the accessible offers, on the reliability and accuracy of the statements on accessibility, therefore:
 - On-site inspections of all facilities and the assessment of the accessibility for wheelchairs by the project manager

Today's achievements

- Result at the end of 2017:

80 accessible accommodations

463 accessible cultural and leisure facilities

→ Tested and evaluated according to unified quality criteria

Accessible Tourism in Saxony

- No certification, but detailed description of the accessibility of individual facilities for travelers with mobility impairments
- Registration of further offers like
 - Induction loops for hearing impaired
 - Braille inscriptions
 - Special tours, educational offers or Audio and Video Guides for blind or mentally challenged travelers

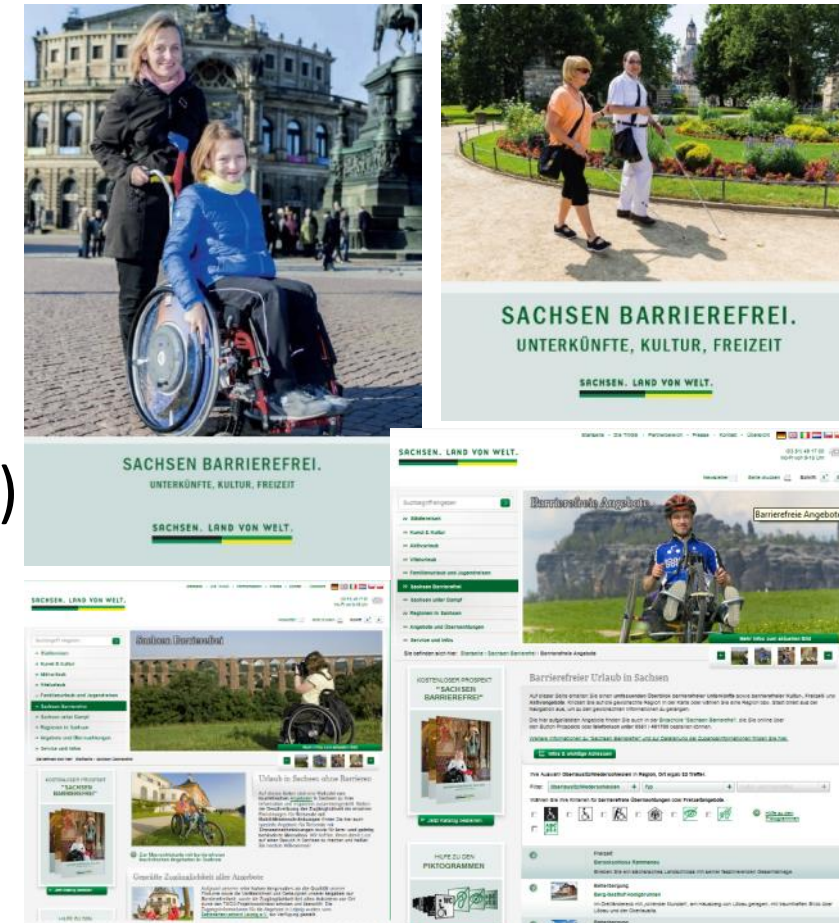

On-site inspection and assessment of the accessibility

Marketing

- Detailed and reliable descriptions of over 550 touristic offers:
 - brochure „Sachsen Barrierefrei“ (German only, an English brochure ist currently in production)
 - online in German and English language on www.visitsaxony.com
 - audio version of the brochure in DAISY format
