

The first application that allows instant booking of healthcare services all over the world.

# A service power by

**A CIASCUNO**  
**LA SUA VACANZA!**

Village for All V4A is a company specialized in "Accessible Tourism" assisting Companies, Public and Private Bodies or Associations in all the activities related to this particular segment, ranging from concept development to product creation and marketing

The Brand V4A® was born in 2008 and is present in Italy, Croatia and San Marino

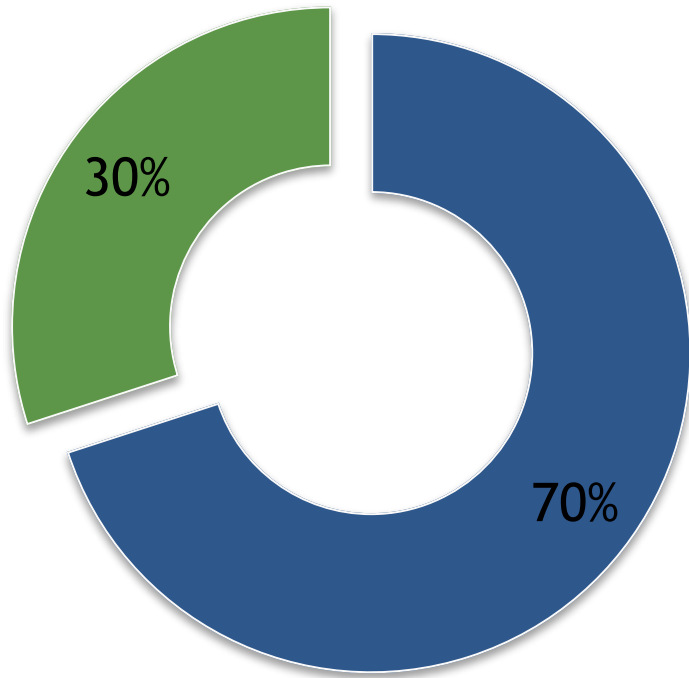

**Bed&Care**  
The accessibility booster

Bed&Care is a booking system of healthcare assistance services, such as rental of mobility aids, healthcare assistance, rental of vehicles with platform.

The main goal of the company is to boost the existing tourism offer with all the services proposed by local healthcare services providers.

# Our services

● Other disabilities ● Mobility impairment

Transport services  
with platform

Choice of the  
accommodation

Mobility  
Equipment Hire

Healthcare  
Assistance

**Our services enable tourism company to address easily and effectively the needs of all travellers with special needs, not only those with mobility impairments**

# Problem

## Travelers with special needs

don't have an easy way to find and book equipment and healthcare assistance during the trip.

## Tourism Industry

not aware of the specific needs of the target and uncomfortable dealing with the target

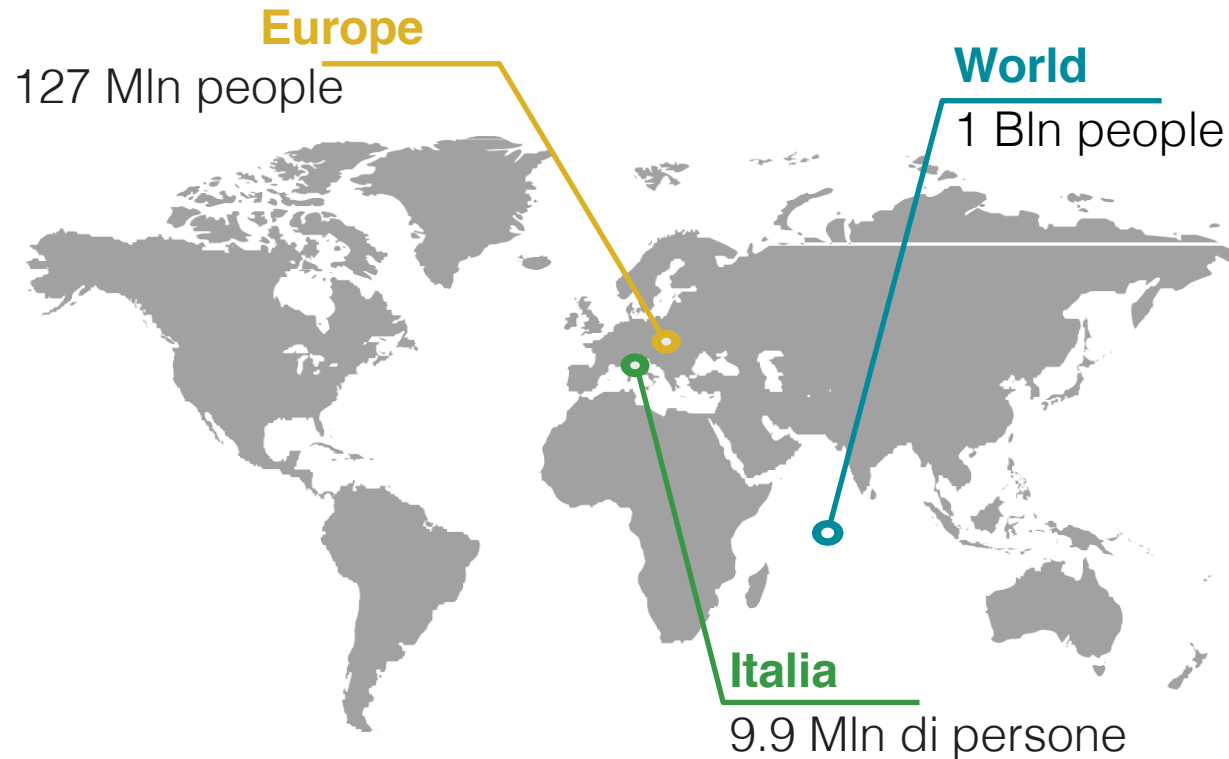

## Third Sector

has the skills needed to deliver targeted services to travellers with special needs.

# A huge but not homogeneous market

**13% of the world population is looking for accessibility**

**Inhomogeneity makes very difficult to travel sector operators to get oriented and to provide the right service to everyone.**

# A complex matter with an easy solution
